Major: Special Agent Mike Bumberger works for me at the FAA. I received an offer today from (b) (6) to deploy some mobile (b) (6) devices to the Mid-West to try and detect any (b) (6) drone activity at any of the live sightings of multiple drones. This would come with no strings or cost. I am just the conduit as their DC office contacted us. I am also connecting them with the CIAC for CSP use. If you are amenable, I will provide your contact information so (b) (6) can contact you directly but won't do anything until I hear back from you. I can be contacted 24/7 on either cell phone below or through my Watch Floor at 202-267-3333 who will track me down. Look forward to talking at your convenience. Thanks,

Josh
